

All Systems Go

KEDbluestone: All Systems Go.

At KEDbluestone, we are an innovative team of MEP/T engineers who are firing on all cylinders. Our job is to solve complex problems behind the scenes and to deliver seamless solutions that our clients can count on. Our aim is simple: to be exceptional.

Our team is known for our unwavering commitment to project success, for delivering the highest standards of quality in MEP/T engineering design, and for providing an enjoyable and personable client experience. With over 70 employees, and offices in Des Moines, Iowa City, and Peoria, KEDbluestone is proud to be the MEP/T engineer of choice for clients throughout the Midwest and beyond.

The KEDbluestone difference.

As firms grow, there's a tendency to lose the personal touch that often sparked that growth in the first place. At KEDbluestone, our leaders remain committed to staying hands on and connected to every project our firm touches.

Our leaders play active, direct roles in project management, engineering, estimating, and quality control. Their involvement, combined with their expertise in complex construction projects, provides insight into installation issues, project costs, and construction schedules that help ensure your project is delivered on time and in budget.
